

Sprint 1 Report

Product: Fete

Team name: Fete

Date: 10/21/18

Actions to stop doing:

- The team is currently content with everything we are doing. We are not looking to stop doing anything at the moment. We have certain tasks that have been extensively planned out already. Everything we want to implement we are working to understand.

Actions to start doing:

- We need to start having a higher level of understanding for the features we want to implement in the application.
- Start creating the actual application and have a working demo.
- Update Scrum Board, and Burnt-up chart after every scrum meeting.

Actions to keep doing:

- Discuss more on the project.
- Schedule more meetings together so that we can help each other because we're sure some teammates understand the material better than others.
- Continue communicating well on slack because it helps with planning.

Work Completed:

- **User story 1:** As a developer, I want to be comfortable with Git and github so that I can keep my team up to date with my progress.
- **User story 2:** As a developer, I want to be comfortable with Firebase so that I can use it for user authentication and database hosting.
- **User story 3:** As a developer, I want to be comfortable with android studio and java so I can be skilled for later development
- **User story 4:** As a developer, I want to be familiar with Stripe, so that I can learn how to set up safe credit card transactions.

Work not Completed:

- -

Work Completion Rate:

- User stories completed: 4
- Total number points completed: 49 points
- Total Number of Days: 14
- User stories per day = 0.286 User stories per day
- Work completed in hours per day: 3.5 points per day
