- Be able to communicate with other users
- Be able edit account profile
- Be able to monitor who is attending the party
- Be able to make credit card transactions

### **Sprint 1:**

- As a developer, I want to be comfortable with Git and github so that I can keep my team up to date with my progress. (9 story points)
- As a developer, I want to be comfortable with Firebase so that I can use it for user authentication and database hosting. (16 story points)
- As a developer, I want to be comfortable with Android Studio and Java development so I can be skilled for later development. (15 points)
- As a developer, I want to be familiar with Stripe, so that I can learn how to set up safe credit card transactions. (9 story points)

### **Sprint 2:**

- As a user, I want a Login page, so that I can login in as a returning user. (20 story points)
- As a user, I want to have a SignUp page, so that I can create an account if I am a new user. (20 story points)
- As a user, I want to have an account page, so that others can view my page. (17 story points)
- As a user, I want to be able to edit and create parties, so that others can join my events. (22 story points)

### **Sprint 3:**

- As a user, I want to be able to share text, pictures, and videos so that I can have the tools to advertise my party. (15 story points)
- As a user, I want to have an open chat activity so that I can be able to communicate with other users. (25 story points)
- As a user, I want to have the option to add friends so that I can make new friends on the app. (16 story points)
- As a user, I want to have a settings page so that I can have control of what other users can see. (7 story points)

**Sprint 4:**

- As a user I want to have a clean and simple designed app so that it is easy to use. (20 story points)
- As a party host, I want guests to have the option to make online payment so that I can have a cover charge if desired. (8 story points)
- As a user, I want to have the option to reset my password so that I can have a way to log in if I forget my password. (8 story points)
- As a user, I want to be able to upload an image on my account so that I other users can see me and so that I can see other users. (8 story points)
- As a user, I want to be able to leave a party that I have joined. (8 story points)
- As a user I want to have a settings page so that I can be in control of what other users see on my account. (7 story points)

**Backlog:**

- As a party guest, I want to have the option to “like” a party so that we have a rating system to which parties are fun. (5 story points)
- As a party host, I want to have the option to create a “party team,” that can be my group of friends helping me manage the party so that creating parties will be easier. (9 story points)
- As a developer, I want to learn Swift and Xcode so that I can publish this app on both iOS and Android. (10 points)
