Sprint 4 Plan

Product Name: Fete
Team Name: Fete

Revision number: 1
Revision date: 11/19/18

Goal: Give Party hosts features to manage a party, this includes option to set up party to private.

Task Listing:

- **User story 1**: As a party host, I want to have the option to set my parties to public or private so that I can share to specific people I want to invite to my party.
    - Create private option on parties.
    - Allow user to select toggle the option.
    - Make layout for option.
    - ★ Total for user story 1: **12 points**

- **User story 2:** As a party host, I want to able monitor who will be attending my party so that I can be aware of who is in my party and prepare to get the right amount of supplies needed to have a successful party.
    - Keep track of people who have signed up for party.
    - Keep track of person who created party.
    - Give person who created party admin rights, so that they can see who is going to the party.

    - ★ Total for user story 2: **15 points**

- **User story 3:** As a party guest, I want to have the option to split a coverage charge with a friend so that.
    - Compare payment methods so that we can decide on which one we want.
    - Set Up Payment option.
    - Test payment.

    - ★ Total for user story 4: **10 points**

- **User story 4:** Finish settings page.
    - Figure out what needs to be added to settings page.
    - Customize app theme.

    - ★ Total for user story 4: **13 points**
